**Subject:** Greater Bass  
**Attachments:** 2019 Power Quote.pdf

Proposal (estimated) for clients son to run power approximately 100' and install electric pedestal for REI to tie into for electric service following collapse of blue pole shed. Photos are included to document install conditions and damage to building. Please let me know if you have any concerns. WPS's contractor will be running power from road to a different building on Tuesday 5-28-19 and it is possible we can have power back to trailer that same day if prior approval is granted.

Thank you,

hi Dave just checking on Menards website the wire looks like it would be about \$268. And the outdoor pedestal box is about \$139.
