Re: Request to Withdraw the former Kenosha Engine Plant Site (BRRTS# 06-30-564033), 5555 30th Avenue Kenosha, WI from the Voluntary Party Liability Exemption Program

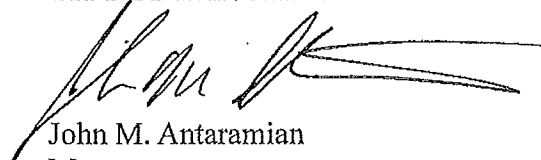

Dear Mr. Volkert:

The City of Kenosha respectfully requests withdrawal of the former Kenosha Engine Plant site, 5555 30th Avenue, Kenosha, WI from the Voluntary Party Liability Exemption (VPLE) Program. The withdrawal from the program is prompted by the fill soil and topsoil sampling requirements being imposed by the VPLE committee. The committee cites the January 2016, DNR guidance RR-041 titled *Obtaining DNR Approval Prior to Use of Imported Soil and Other Fill Materials on Voluntary Party Liability Exemption Sites* and Wisconsin Administrative Code NR 718 regarding sampling frequency without exception.

The former Kenosha Engine Plant site will require approximately 50,000 cubic yards of imported fill soil and 27,000 cubic yards of imported topsoil. The number of samples required under NR 718.12 (e) would be 171 soil samples from an identified fill soil source. Similarly, 94 samples would be required from a top soil source. Assuming that none of the samples exceeded an NR 720 residual contaminant level, the time and cost to collect, analyze and report the sample results and obtain WDNR approval make participation in the VPLE program at this time economically unviable for a publicly funded project.

Therefore, the City of Kenosha requests cancellation of this site's participation in the VPLE program and reimbursement of any remaining deposit money. The City understands that the application fee was non-refundable.

Sincerely,
CITY OF KENOSHA

John M. Antaramian
Mayor
