Dear Mr. Klauk:

This is in response to your letter to Michael Kawleski dated August 10, 2015, concerning the above site. At the present time we are in need of additional information before we can fully respond to the Department's request that we engage a consultant and prepare a work plan for further site investigations.

We need to review the data and reports generated by your consultant, OMNNI Associates, and any other reports and data in the Department's possession regarding the site. Since your letter was our first notice of a concern in this area, we will also need time to do a title search on the property to better understand ownership and access issues, as well.

We request that the Department provide us with an additional ninety (90) days to meet and confer with the Department, review the available information, conduct title work and other such research as may be necessary before requiring that we commit to further remedial investigations. I will follow up with you later this week to discuss our concerns and possible next steps.

Sincerely,

J. Michael Davis
