Hi Karen,

Regarding project status, there has not been any data collected since the December 8, 2021 Site Status Update submitted by Westwood. In the meantime, EnviroForensics became familiar with the site operational and investigation history, and developed a plan to move the site forward.

A work plan for the next phase of investigation is attached. The first part of work including soil boring and sampling, monitoring well installation, and off-site VI assessment is scheduled for August 29-31.

Regards,

Brian Kappen, Senior Geologist/ Project Manager

Subject: RE: Consultant of Record

Hello Brain,

I am the DNR project manager for Allyn Property (BRRTS # 02-31-564071) located at 111 Steele Street, Algoma. I was informed that EnviroForensics was hired as the new consultant for this site and you are the primary contact.

We did not receive a NR 700 Semi-Annual Report for July 2022, I understand this is due to changing of consultants. Can you please provide a status update for this site.

Also, it is my understanding that a new site investigation work plan will be submitted for this site. Can you please provide an expected timeline for when the work plan will be submitted to the DNR.

If you have any question or wish to discuss the site, please feel free to contact me at (920) 501-4349 or Karen.Campoli@wisconsin.gov.

Thank you,
-Karen

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Karen,

As you know, Mr. Emery recently changed from his previous consultant to EnviroForensics. We are excited to move this site along. Brian Kappen will be the primary contact for the Site. He is currently on PTO and is copied here. His phone number is 262.745.5015 for your records. Also, copied is Ted Warpinski, Mr. Emery's counsel. EnviroForensics developed a work plan which Brian can submit in the first week of August upon his return.

In the meantime, if Danielle can switch the semi-annual reporting requirements to everyone on this email, we will make sure it is completed in a timely fashion.

Sincerely,

Rob Hoverman, Northern Midwest Regional Director
