

Notice: Use this form to request a **written response (on agency letterhead)** from the Department of Natural Resources (DNR) regarding technical assistance, a post-closure change to a site, a specialized agreement or liability clarification for Property with known or suspected environmental contamination. A fee will be required as is authorized by s. 292.55, Wis. Stats., and NR 749, Wis. Adm. Code., unless noted in the instructions below. Personal information collected will be used for administrative purposes and may be provided to requesters to the extent required by Wisconsin's Open Records law [ss. 19.31 - 19.39, Wis. Stats.].

Definitions

"Property" refers to the subject Property that is perceived to have been or has been impacted by the discharge of hazardous substances.

"Liability Clarification" refers to a written determination by the Department provided in response to a request made on this form. The response clarifies whether a person is or may become liable for the environmental contamination of a Property, as provided in s. 292.55, Wis. Stats.

"Technical Assistance" refers to the Department's assistance or comments on the planning and implementation of an environmental investigation or environmental cleanup on a Property in response to a request made on this form as provided in s. 292.55, Wis. Stats.

"Post-closure modification" refers to changes to Property boundaries and/or continuing obligations for Properties or sites that received closure letters for which continuing obligations have been applied or where contamination remains. Many, but not all, of these sites are included on the GIS Registry layer of RR Sites Map to provide public notice of residual contamination and continuing obligations.

Select the Correct Form

This form should be used to request the following from the DNR:

- Technical Assistance
- Liability Clarification
- Post-Closure Modifications
- Specialized Agreements (tax cancellation, negotiated agreements, etc.)

Do not use this form if one of the following applies:

- Request for an **off-site liability exemption or clarification** for Property that has been or is perceived to be contaminated by one or more hazardous substances that originated on another Property containing the source of the contamination. Use DNR's Off-Site Liability Exemption and Liability Clarification Application Form 4400-201.
- Submittal of an Environmental Assessment for the **Lender Liability Exemption**, s 292.21, Wis. Stats., **if no response or review by DNR is requested**. Use the Lender Liability Exemption Environmental Assessment Tracking Form 4400-196.
- Request for an **exemption to develop on a historic fill site** or licensed landfill. Use DNR's Form 4400-226 or 4400-226A.
- **Request for closure** for Property where the investigation and cleanup actions are completed. Use DNR's Case Closure - GIS Registry Form 4400-202.

All forms, publications and additional information are available on the internet at: dnr.wi.gov/topic/Brownfields/Pubs.html.

Instructions

1. Complete sections 1, 2, 6 and 7 for all requests. Be sure to provide adequate and complete information.
2. Select the type of assistance requested: Section 3 for technical assistance or post-closure modifications, Section 4 for a written determination or clarification of environmental liabilities; or Section 5 for a specialized agreement.
3. Include the fee payment that is listed in Section 3, 4, or 5, unless you are a "Voluntary Party" enrolled in the Voluntary Party Liability Exemption Program and the questions in Section 2 direct otherwise. Information on to whom and where to send the fee is found in Section 8 of this form.
4. Send the completed request, supporting materials and the fee to the appropriate DNR regional office where the Property is located. See the map on the last page of this form. A paper copy of the signed form and all reports and supporting materials shall be sent with an electronic copy of the form and supporting materials on a compact disk. For electronic document submittal requirements see: <http://dnr.wi.gov/files/PDF/pubs/rr/RR690.pdf>

The time required for DNR's determination varies depending on the complexity of the site, and the clarity and completeness of the request and supporting documentation.

Subject: Workplan for Well Abandonment and Installation of Replacement Wells
Madison-Kipp Corporation
TRC Project No. 269392.0000
BRRTS #02-13-578014

Dear Mr. Schmoller:

TRC Environmental Corporation (TRC) presents the following workplan for abandonment of four existing monitoring wells and installation of two replacement monitoring wells at Madison-Kipp Corporation (MKC), 201 Waubesa Street, Madison, WI. This work is planned in accordance with the Stipulation and Order for Judgment agreed upon by MKC and the State of Wisconsin in November 2017.

Monitoring Well Abandonment

Existing monitoring wells MW-22S, MW-22D, MW-23S, and MW-23D will be abandoned in accordance with NR 141, Wisconsin Administrative Code. These four wells are 50 feet deep or less and have less than 30 feet of standing water column, therefore, they will be abandoned by filling the casings with 3/8-inch bentonite chips.

Monitoring Well Installation

Two new monitoring wells (MW-29S and MW-29D) will be installed outside the building at the south end of the MKC facility. The approximate location of the new well nest conforms with the Stipulation and Order for Judgment and is shown on Figure 1. MW-29S will be installed with 10 feet of PVC screen from approximately 25 feet to 35 feet below ground surface (bgs). MW-29D will be installed with 5 feet of PVC screen from approximately 45 feet to 50 feet bgs. The boring for MW-29S will be drilled using hollow-stem augers. The boring for MW-29D will be drilled using hollow-stem augers until bedrock is encountered, and then using air rotary drilling through the bedrock until a depth of 50 feet is reached. The wells will be constructed and developed in accordance with NR 141.

Mr. Mike Schmoller
Wisconsin Department of Natural Resources
December 27, 2017
Page 2

All soil cuttings generated during drilling will be containerized in 55-gallon steel drums for disposal. Soil samples will be collected from drummed soil for waste characterization purposes. Groundwater produced during drilling and well development activities will also be containerized for disposal.

Report

Documentation of well abandonment and replacement well installation activities will be submitted to the WDNR in a report following the completion of field activities. Documentation will include well abandonment forms for the four abandoned wells and borings logs, well construction forms, and well development forms for the two new wells.

Schedule

The well abandonment and well installation fieldwork is currently scheduled to take place January 15 and 16, 2018. Disposal of investigation-derived wastes will be coordinated as soon as is practical following well installation. We anticipate submitting the documentation report within 60 days of field activities.

If you have any questions about this workplan please contact Steve at (608) 826-3608 or Katherine at (608) 826-3663 to discuss.

Sincerely,

TRC Environmental Corporation
