Dear Mr. Beggs

This correspondence is a follow-up to our telephone conversation on December 5, 2016, concerning a letter addressed to Mr. Robert Fetter, Fisher Scientific International, LLC from The State of Wisconsin, Department of Natural Resources (WDNR) that was sent on November 18, 2016, by Denise D. Daneiski, Environmental Program Associate/Outreach, Remediation & Redevelopment Program.

The letter concerns the reported release to WDNR on October 25, 2016 on behalf of Fisher Scientific International, LLC of volatile organic compounds (VOCs), metals and lead compounds on the former Hamilton Industries Site, 1316 18<sup>th</sup> Street, Two Rivers, WI (Inter of 16<sup>th</sup> Street & E River Street-vacated) BRRTS Activity #02-36-578316.

According to the Legal Responsibilities defined with the WDNR letter, I would like to advise you that Thermo Fisher Scientific, Inc, on behalf of Fisher Scientific International, LLC has hired ERM to be the environmental consultant to prepare the site investigative work plan, which will be sent to your attention for an informal review and approval. ERM's contact information is:
