Tauren,

Sorry for the delay in getting back to you. We're in the process of pulling together the SIR and hope to have it to you in a couple weeks or so. Not really much update on the LNAPL side, I've reviewed historical documents and can't find a definitive source, but the nearest boring completed recently to the north didn't have the same evidence of diesel like odors. A more detailed discussion/proposed additional investigation will be included in the SIR.

Regards,

David

Good morning David,

Find out anything more on the free product issue since we last talked near the end of April? I was also curious as to when I can expect the Site Investigation Report to be submitted. Please let me know when you get a chance.

Thanks a bunch,

We are committed to service excellence.
