Tauren,

It was good talking with you this morning. MW-7, 8 and 9 were installed by the City of Two Rivers and we have an access agreement with the City that has allowed them to be used for the former Hamilton Industries quarterly sampling. As a reminder, the City owned monitoring wells MW-06, MW-07 and MW-10 have been discontinued from monitoring per Table 5 in the Quarterly Groundwater Monitoring Report submitted in July 2020.

Regards,

David

Good afternoon,

I would like to get clarification of ownership or transfer of ownership for the monitoring wells (MW-7, MW-8, and MW-9, refer to attached map for reference). Was the ownership of these monitoring wells officially transferred from the City of Two Rivers to Thermo Fisher? Please let me know and provide any applicable documentation you have for the transfer of ownership.

David, I know you have these monitoring wells outlined on Table 5 in the latest Quarterly Groundwater Monitoring Report submitted in July 2020. Just want to confirm who has the responsibility of these monitoring wells now.

Thanks,

We are committed to service excellence.
