RE: DNR BRRTS Activity #03-41-579844
DNR FID #241280270

Dear Mr. Yang,

General Mitchell Airport (Milwaukee County) is in receipt of the DNR's July 26, 2017 notification of reported contamination due to a hydrant fuel pipeline release which occurred on May 1, 2017. As a result of this release Mitchell Airport has retained the services of the environmental consulting firm of Burns & McDonnell to lead investigated activities. Burns & McDonnell with primary project manager Corey Merriman is the same consulting firm and individual who were involved in the mitigation activities conducted during the initial release.

By September 25, 2017 Mitchell Airport along with Burns & McDonnell shall present a site investigation work plan based on the previously submitted mitigation plan. Trevor Nobile of your staff is familiar with the release and all mitigation activities conducted to date. Site representative for Mitchell Airport during this process shall be the Airport's Environmental Manager; Greg Failey who's contact information is on file.

Sincerely,

Greg G. Failey
Environmental Manager
