Doug, thanks for discussion of this site today. Right now the Responsible Party (RP) is discussing options about the sale of the property. The RP understands there is a vapor intrusion issue. The RP understands that the building is unoccupied and will remain unoccupied into the foreseeable future due to the vapor intrusion issue. The vapor intrusion issue will be addressed at a later time. I will update you in 3 months from now (April 7, 2020) about site conditions.
