John, just a couple comments.

Deer exclusion requires a minimum of 8 foot height, page 11 par 3 item 1.

Canada geese, page 12 item 1.10 does not mention use of egg oiling or nest removal as a method to encourage geese to leave the area. Husky can work with the City of Superior to use their existing permit to conduct egg oiling or nest control. They can contact:

Linda M Cadotte

Director of Parks, Recreation & Forestry

City of Superior

Superior, WI 54880

If they need to capture any deer or need help at hazing birds, USDA-WS (United States Department of Agriculture – Wildlife Services) can provide these services. They have dart guns and training to capture free-ranging deer as well as haz-whopper training to enter these types of facilities to engage in hazing to deter wildlife. Their contact for these services is:

Hi Greg,

I forgot to add you to the cc list for this email. Superior Refining got the Wildlife Plan to me late today. I approved it but left it open if we want to add or suggest any other actions.

We are committed to service excellence.

Dave,

The WDNR approves the Wildlife Management Plan. The WDNR may have additional comments, recommendations and/or requirements as the event/response continues.

Thanks.

We are committed to service excellence.

John,

Attached is the proposed Wildlife Response Plan for the 2018 Superior Refinery Fire.

That plan has been reviewed by both Husky/Superior Refinery and the WDNR, with all previous comments incorporated.

We would appreciate an initial approval from the WDNR so that we can proceed on what we proposed but understand that the WDNR may have additional comments and recommendations as the event/response continues.

Thanks,

Dave
