Dave,

The Sampling Plan appears adequate for the sampling that is occurring now through Thursday. I agree that we should add an addendum later this week to reflect changes to the plan based on the results we are seeing.

Thanks.

John,

Attached is the Water Sampling and Analysis Plan. Could you look over and give your buyoff before I get it signed off?

I am envisioning adding an addendum after Thursday if we come to the conclusion we can reduce sampling frequency and analytes.

Please let me know if you have any questions.

Thanks,
Dave
