Hi John,

Thanks for sharing the waste management plan from Superior Refining Company.

The department's waste and materials management program has reviewed Superior's plan and agrees with their response. Waste materials should be characterized to determine if the waste stream is a solid or hazardous waste. The waste should be containerized and transported to licensed or approved solid waste facilities. Recycling and reuse of waste streams is encouraged. We recommend retaining records on site to verify disposal of the waste streams.

Please feel free to share this information with Superior Refining Company. Thank you.

Bob Germer

Hi Jill and Bob,

Attached is the Superior Refining Co's (SRC) Waste Management Plan. SRC is currently using this plan and is not waiting for DNR approval. Please forward any comments or concerns to me and I can pass them on to SRC.

Thanks you.

We are committed to service excellence.

Hey John,

I've attached a few files for your reference:

- The signed Waste Management Plan
- The updated (fewer/updated locations and analytes) Surface Water Sampling and Analysis Plan
- The Oil Movement Storage Tank Information list

Let me know if you have any questions.

Thanks,

Matt Turner
