Matt,

Thank you for the reply to the Department's September 20, 2018 responsible party letter. The Department is aware of the continuing immediate actions being taken to de-inventory and winterize the refinery and recover the discharged hazardous substances. The proposal to postpone submittal of a work plan under Wis. Admin. Code §NR716.09 until spring 2019 is acceptable. The Department requests a work plan be submitted by May 1, 2019. Please continue to submit updates on the progress of ongoing immediate actions monthly. Please contact me if you have any questions.

We are committed to service excellence.
