Attachments: AFFF SPill Location.jpg

Rick,

Attached is a poor drawing of the ships associated with the area and where the AFFF spill started and ends. The black diamonds are barrier booms we have set up for local boat traffic. The white spots by LCS-15 is where it started and the concentrated white area by LCS-17 is where most of the AFFF moved and concentrated in, this area is also where the containment booms were in place.

I will send you a copy of our yard map shortly.

Thanks!

Ty

Is the release at the approximate location marked below?

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
