Subject: Notice of Concurrence with Approval of "OUs 2-5 Remedial Action Certification of RA Completion Report, July 2022": Consent Decree with NCR Corporation and Appvion, Inc. ("CD"), Docket No. 10-cv-00910-WCG; Lower Fox River and Green Bay Superfund Site, WI; WDNR BRRTS Activity #: 02-45-582407

Dear Mr. Saric,

The Wisconsin Department of Natural Resources (WDNR) concurs with approval by the United States Environmental Protection Agency (EPA) of the above referenced report for the Lower Fox River and Green Bay Superfund Site (Site). Remedial Action Work (RA Work) as defined in the above referenced CD has been completed by NCR at the Site in accordance with federal and state requirements. Documentation of the RA Work by NCR has been submitted and reviewed by WDNR and EPA (Response Agencies).

Continuing obligations for the Site, such as long term monitoring, cap maintenance and institutional controls, must continue to be implemented by the responsible parties pursuant to the terms of the above referenced CD and the related "Consent Decree with P.H. Glatfelter Company and Georgia-Pacific Consumer Products L.P., Order filed March 14, 2019." The Response Agencies will continue to oversee all current and future work for protection of public health and the environment. WDNR's closure process will include Site information on the Bureau of Remediation and Redevelopment Tracking System ("BRRTS") under BRRTS# 02-45-582407.

On behalf of WDNR, we appreciate the accomplishments on this extraordinary project and the cooperative efforts between Response Agencies to oversee the work. Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Beth J. Olson".

Beth J. Olson
State Project Coordinator and Field Integration Leader
