Subject: Materials Management Plan - 2801 Marshal Court, Shorewood Hills, WI

Dear Mr. Arnesen:

The Department has reviewed and approves the October 17, 2018 2801 Marshal Court materials management plan. The plan addresses contaminated soil, groundwater and vapors issues. As proposed SCS Engineers field staff will be on site to separate clean and contaminated soils. Contaminated soils will be landfilled. If encountered during dewatering efforts contaminated groundwater will be sent to the Madison Metropolitan Sewerage District.

At present so vapor mitigation systems are planned based on the recent vapor sampling results. The Department suggests, but does not require, that it may be advisable to incorporate vapor control technologies into the new buildings.

If you have questions or concerns on this review, please contact me directly.

Sincerely,

A handwritten signature in blue ink, which appears to read 'R. Michael Schmoller', is positioned below the 'Sincerely,' text.
