Re: Reported Contamination at One Hour Martinizing
1035 Summit Avenue, Oconomowoc, WI
DNR BRRTS Activity # 02-68-582951
DNR FID # 268087160

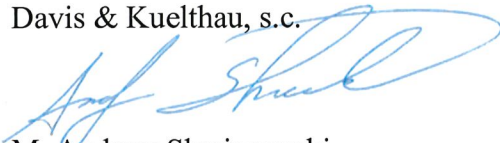

Dear Ms. Jorgensen:

My name is Andy Skwierawski and I have been retained by and represent Mr. Cass with respect to the site at 1035 Summit Ave, Oconomowoc, WI, BRRTS 02-68-582951. I am in receipt of your original RP letter dated January 11, 2019, and your "push" letter dated November 11, 2019. I was also informed by Mr. Cass that a DNR representative called on December 26, 2019 to inquire as to the status of the project.

Mr. Cass has put his insurance carrier on notice of the DNR's claim. He has engaged myself, and has EnviroForensics prepared to continue the investigation and remediation, however, at this time we are waiting for the carriers to respond to the tender before proceeding with work to ensure that any work that is done is covered. I will update you as soon as we hear back from the carriers.

Very truly yours,

Davis & Kuelthau, s.c.

M. Andrew Skwierawski
