Dear Carrie Stoltz,

We received your letter dated July 25th, 2019. It is unfortunate that Rhineland's Municipal Well #7 had Polyfluoroalkyl Substances detected.

I have reviewed the examples of the PFAS compounds that were mentioned within the letter and HyPro Inc. does not manufacture, store and/or use those type of chemicals at our property location, 1111 Air Park Road, Rhineland, WI. Currently, we use the property for machining of parts/product.

HyPro Inc. purchased the property in 1990 from the previous owner, Jim Young, who only assembled custom craft doors.

We submitted a "Storm Water Pollution Plan" which was approved by the Wisconsin Department of Natural Resources. Our facility code linked to this plan is 744152970 and I have attached a copy of the environmental fee invoice with this correspondence.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Ronald Scott Ruebensam
