Subject: Waupaca Foundry Co Plant 4 (BRRTS #02-38-584102) Site Investigation Workplan

Andrew,

I have reviewed the SI workplan submitted for the above-referenced site and concur with the outlined investigation activities. The sampling of MW-7 for the limited listed set of parameters to confirm the ATC analytical results is acceptable at this time. However, based on analytical results, additional sampling could be required.

This email serves as your notice to proceed.

If you have any questions, please let me know.

Thanks,
Dave
