Thank you, Beth. Please consider this email as the DNR's notice to proceed with the PFAS sampling as indicated in your email.

Best Regards,  
Josie

Hi Josie,

As a follow up to our call, GEC will plan to sample the sump, MW-1 and MW-3 in conjunction with the next round of petroleum samples already approved to be completed. Samples will be analyzed for all 36 PFAS WDNR requires. Based on results, GEC will submit a full SIWP for future work, should it be required. Please confirm receipt of this email and concurrence with the above scope.

Thank you,

Beth

Thank you for confirming Josie. As discussed, is it okay if we forego the SIWP until we get the result confirming the presence of PFAS at the site, or do we need the SIWP prior to sampling?

Thanks again,

Beth

**Subject:** RE: Perimeter Solutions PFAS Follow up

Good Morning Beth,

I spoke with Kevin McKnight again this morning, and DNR is still recommending that MW-1, MW-3, and the sump be sampled and analyzed for PFAS. If you'd like to discuss with Kevin directly, he can be reached at 920-808-0170.

Please let me know if you have any additional questions.

Thank you,  
Josie

Hi Beth,

I've been booked solid with training all week, and wasn't able to touch base with Kevin. I've scheduled time to talk with him first thing Monday morning, and will contact you with an answer.

Thanks and have a great weekend,  
Josie

**Subject:** Perimeter Solutions PFAS Follow up

Good Morning Josie,

I wanted to follow up on our conversation from earlier this week. Did you have an opportunity to discuss the above site with Kevin and whether we can start by collecting groundwater samples from the site sump, and if need be select wells, to confirm the presence of PFAS at the site prior to submitting a full SIWP?

Thanks so much and have a great day,

Beth
