(Former Gasoline Station), Superior, Wisconsin
DNR BRRTS #: 03-16-584200
DOT ID # 1198-03-78

Dear Mr. Miller:

On August 13, 2019, the Wisconsin Department of Natural Resources (Department) received a Phase 2.5 Investigation and Special Provisions plan from GEI Consultants for updates and replacements of traffic signals, street lights, and electrical pull boxes as part of construction projects associated with the US 2/US 53 (East 2nd Street) and 39th Avenue East intersection in Superior. The Special Provisions outline the procedures that the Department of Transportation and any of its contractors will follow for management of contaminated soil encountered in the zone of construction.

The plan submitted appears to be an acceptable approach for the management of contaminated soil in the project corridor based on Department guidelines. The Department hereby approves the proposed Special Provisions for the management of contaminated soil (Petroleum VOCs, PAHs, and lead). If you have any questions, please feel free to contact me at (715) 392-3126 or by email at Grant.Neitzel@Wisconsin.gov

Sincerely,

A handwritten signature in blue ink that reads 'Grant D. Neitzel'.
