Subject: RE: Former Neighborhood Cleaners Work Plan

Brian,

DNR has reviewed the Site Investigation Work Plan for the above referenced site. When the additional analytical results are available after the demolition of the existing structure, we should discuss placement of additional monitoring wells in more detail. We also need to discuss if any piezometers would be needed and if the existing utility corridors need to be investigated.

This email serves as your notice to proceed with the additional site investigation activities.

Have a nice weekend.

-Keld

We are committed to service excellence.

Subject: Former Neighborhood Cleaners Work Plan

Keld, in accordance with our discussion today, I am sending this Site Investigation Work Plan for Neighborhood Cleaners in Appleton. It is understood that the WDNR BRRS No. will be assigned sometime this week and the address of the release may be modified by the WDNR, which will be reflected in any future correspondence. After your review of the Work Plan, please let GEC know if you have any comments or concerns regarding how we move forward with the construction and investigative/remedial activities recommended. A copy of the Work Plan will also be sent by mail.

Thank you,

Brian Youngwirth
