Subject: General Notice to Proceed with Site Investigation Work Plan, Riverpoint District, BRRTS # 02-36-585491

Hi Harris,

As discussed on the phone this email acts as the general notice to proceed with the Site Investigation Work Plan (SIWP). I provided some recommendations to you over the phone. It is the DNR's understanding that the SIWP is contingent upon getting a grant to conduct the work. This SIWP only includes investigation of the area/limits of the identified Phase 1 proposed development area. There is currently no off-site sampling proposed and there is no PFAS sampling in soil or any other media besides groundwater proposed at this time.

As with any SIWP, based on the results of the site investigation work that will be conducted, additional site investigation sampling may be needed to define degree and extent under Wis. Admin. Code ch. NR 716.

Regards,

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
