Subject: Site Investigation Work Plan Review and Approval
Tecumseh Products Co LLC (Former) PFAS, New Holstein WI
BRRTS # 02-08-585623 FID # 408020690

Dear Mr. Smith,

On November 5, 2021, received a report titled “*Preliminary Site Investigation Report and Supplemental Work Plan for Per- and Polyfluoroalkyl Substances (PFAS)*”. A technical assistance request and review fee was also submitted for review of the supplemental site investigation work plan (SIWP). On November 18, 2021, the Northeast Region Peer Review Group evaluated the SIWP and made the following determinations and comments:

- The SIWP as submitted is approved and Tecumseh Products Company is directed to proceed with the proposed work.
- The results of site survey are to be utilized as part of the open chromium contamination site (Tecumseh Products Co – New Holstein, BRRTS # 02-08-363333) as well to insure consistency of groundwater flow interpretations.
- Depending on future soil and groundwater analytical results, additional site investigation may be needed to fully define degree and extent of PFAS as required under Wis. Adm. Code § NR716.

Please contact me at 920-808-0170 or kevin.mcknight@wisconsin.gov if you have questions regarding this letter. The DNR appreciates your continued work on this project.

Sincerely,

Kevin D. McKnight
