

Spill Notification for WRR Environmental Services Co., Inc.

EPA ID# WID990829475

FID# 618026530

ID 20200326WC18-1 – Wastewater

Per Condition 86 of WRR Environmental Services' current Feasibility and Plan of Operations Report (FPOR), WRR is making the following spill report to the Department's designated Hazardous Waste Inspector assigned to WRR, to the Department's designated Hazardous Waste plan review staff person assigned to WRR and to the Department's designated Spills Coordinator.

This notification, required by Condition 86 of the WRR FPOR and NR 706.05(1), contains the following information to the extent practicable or applicable:

1. Name, address, and telephone number of the person reporting the discharge.

Becky Anderson – Director of Compliance
WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

2. Name, address, and telephone number of the discharger, or owner and operator of the UST system and any other potentially responsible persons.

WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

3. Date, time, and duration of the discharge.

March 26, 2020 at 8:45 am. Time to clean up the release was 5.0 hours.

Location of the discharge including street address, county, town, city or village

WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

Town of Washington

4. Identity, physical state, and quantity of the material discharged.

~200 gallons of a hazardous waste containing water and flammable solvents.

5. Physical, chemical, hazardous, and toxicological characteristics of the substance.

This waste is a hazardous waste due to flammability.

Spill Notification for WRR Environmental Services Co – Tote Rupture 04102020

6. Cause of the discharge.

An operator was moving a tote in a hazardous waste storage area with a forklift. The tines on the forklift were longer than the tote and punctured a tote stored behind the one being moved.

7. Immediate actions being taken and the name of the contractor or other person performing the action.

Area operations were shut down and area personnel were gathered to clean up the release.

Spill material was contained to the warehouse's concrete floor. Material that could be pumped was added to a hazardous waste fuel tanker. The balance was cleaned up with floordri. The floordri was placed in open top drums for disposal.

All clean up activities were conducted by WRR personnel.

8. Source, speed of movement, and destination or probable destination of the discharged hazardous substance.

The release was contained to the warehouse floor. The release was contained to the building. No material impacted soil or contaminated the WRR stormwater collection area.

Included with this report is a facility map with the release location marked with a red arrow.

9. Actual or potential impacts to human health or the environment, including actual or potential impacts to drinking water supplies.

No drinking water supplies were impacted by the spill. Air emissions from the spill were calculated to be less than 0.3 lb based on the room conditions at the time of the release and cleanup activities.

10. Weather conditions existing at the scene, including presence of precipitation and wind direction and velocity.

The release occurred indoors and was not affected by wind or precipitation.

11. Other agencies on-scene during the discharge incident.

No agencies were on-site during the discharge or clean-up.
