

Spill Notification for WRR Environmental Services Co., Inc.
EPA ID# WID990829475
FID# 618026530
ID 20200715WC18-1 – Ink Wash Waste Release

Per Condition 86 of WRR Environmental Services' current Feasibility and Plan of Operations Report (FPOR), WRR is making the following spill report to the Department's designated Hazardous Waste Inspector assigned to WRR, to the Department's designated Hazardous Waste plan review staff person assigned to WRR and to the Department's designated Spills Coordinator.

This notification, required by Condition 86 of the WRR FPOR and NR 706.05(1), contains the following information to the extent practicable or applicable:

1. Name, address, and telephone number of the person reporting the discharge.

Becky Anderson – Director of Compliance
WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

2. Name, address, and telephone number of the discharger, or owner and operator of the UST system and any other potentially responsible persons.

WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

3. Date, time, and duration of the discharge.

July 14, 2020 at 9:50 pm. Time to clean up the release was 3.0 hours.

Location of the discharge including street address, county, town, city or village

WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

Town of Washington

4. Identity, physical state, and quantity of the material discharged.

~60 gallons of a liquid flammable hazardous waste – Ink wash.

5. Physical, chemical, hazardous, and toxicological characteristics of the substance.

Spill Notification for WRR Environmental Services Co - Ink Wash Waste Release
07142020

This material is flammable with a flashpoint <70F.

6. Cause of the discharge.

An operator tasked with pumping waste ink wash totes to a tank, connected to the wrong line. The line connected to the pump was valved and capped. The pressure built up in the line when the pump began operating. A gasket in the line released under the pressure and the material was released.

7. Immediate actions being taken and the name of the contractor or other person performing the action.

The pumping operation was stopped.

Spill material was contained to the EI south concrete pad and inside the EI building. The material was cleaned up with floordri and pads. The floordri and pads was placed in open top drums for disposal.

All clean up activities were conducted by WRR personnel.

8. Source, speed of movement, and destination or probable destination of the discharged hazardous substance.

The release was contained to the concrete pad and the EI floor. No material impacted soil or contaminated the WRR stormwater collection area.

Included with this report is a facility map with the release location marked with a red arrow.

9. Actual or potential impacts to human health or the environment, including actual or potential impacts to drinking water supplies.

No drinking water supplies were impacted by the spill. Air emissions from the spill were calculated to be ~44 lbs based on the weather conditions at the time of the release and cleanup activities.

10. Weather conditions existing at the scene, including presence of precipitation and wind direction and velocity.

The temperature at the time of the spill was 65F with 4 mph winds. There was no precipitation.

11. Other agencies on-scene during the discharge incident.

No agencies were on-site during the discharge or clean-up.
