Subject: NR 141 variance approval for small diameter wells for BRRTS # 03-41-586899 (Former Shorewood Queensway Cleaners) at 4300 North Oakland Avenue, Shorewood, WI

Dear Ken,

The DNR approves of the installation of four one inch diameter groundwater monitoring wells, GP-101 through GP-104 as allowed under Wis. Admin. Code § NR 141.31 (2) for the investigation of the LUST case. The wells will meet Wis. Admin. Code ch. NR 141 construction requirements except for the small diameter. The variance is justified based on the geology of the site and the presence of an existing NR 141 compliant groundwater monitoring network.

Alice
