Alex,

Attached are the documents to begin the hazardous waste removal process with Enviro-Safe.

This will be an "episodic" pickup granted to very small quantity generators. According to Enviro-Safe, the episodic pickup may take up to 60 days. I believe this has something to do with the EPA?

Thanks,

**Brett Donaldson**

Brett,

Just checking to see if any progress has been made regarding the removal of the drums containing the hazardous waste dry cleaner filters in the trailer at the Cecil Street location. During our meeting last month you said you would try to have the drums shipped off-site by the end of the year. Hopefully that is still the timeline, please let me know if you are encountering any obstacles. Last month I sent you a list of transporters and facilities that manage hazardous waste, please let me know if you are having any issues finding an appropriate destination facility for your waste. And if there is any further assistance I can provide please don't hesitate to contact me.

Regards,
