

Spill Notification for WRR Environmental Services Co., Inc.

EPA ID# WID990829475

FID# 618026530

Spill ID# 19134

ID 20230523WC18-1-1 – N-Propyl Bromide (Solvent – 1-Bromopropane)

Per Condition 86 of WRR Environmental Services' current Feasibility and Plan of Operations Report (FPOR), WRR is making the following spill report to the Department's designated Hazardous Waste Inspector assigned to WRR, to the Department's designated Hazardous Waste plan review staff person assigned to WRR and to the Department's designated Spills Coordinator.

This notification, required by Condition 86 of the WRR FPOR and NR 706.05(1), contains the following information to the extent practicable or applicable:

1. Name, address, and telephone number of the person reporting the discharge.

Becky Anderson – Director of Compliance  
WRR Environmental Services Co., Inc.  
5200 Ryder Road  
Eau Claire WI 54701  
715-577-7755 (Cell)

2. Name, address, and telephone number of the discharger, or owner and operator of the UST system and any other potentially responsible persons.

WRR Environmental Services  
5200 Ryder Road  
Eau Claire WI 54701  
715-834-9624

3. Date, time, and duration of the discharge.

May 23, 2023 at 11:00 am. Time to clean up the release was 0.33 hours.

Location of the discharge including street address, county, town, city or village

WRR Environmental Services Co., Inc.  
5200 Ryder Road  
Eau Claire WI 54701

Town of Washington

4. Identity, physical state, and quantity of the material discharged.

~10 gallons total of n-Propyl Bromide product was released from an air pump while filled product drums.

Spill Notification for WRR Environmental Services Co – NPB 05232023

5. Physical, chemical, hazardous, and toxicological characteristics of the substance.

The release was a finished product consisting mainly of n-propyl bromide. The main hazard associated with this product is its classification as a hazardous air pollutant.

6. Cause of the discharge.

The release occurred in WRR's EI building. While a production worker was barreling the n-propyl bromide, the pump began to pump slower and slower. The production worker tried to fix the pump and broke the pump's hardline connection to the pump station.

7. Immediate actions being taken and the name of the contractor or other person performing the action.

The production worker stopped the pumping operations and quickly cleaned up the released material.

All cleanup activities were conducted by WRR personnel.

8. Source, speed of movement, and destination or probable destination of the discharged hazardous substance.

The release was contained to the EI Building. The EI building has no drains.

Included with this report is a facility map with the release location marked with a red arrow.

9. Actual or potential impacts to human health or the environment, including actual or potential impacts to drinking water supplies.

WRR personnel were wearing personal protective equipment during cleanup operations. No injuries were reported.

No drinking water supplies were impacted by the spill.

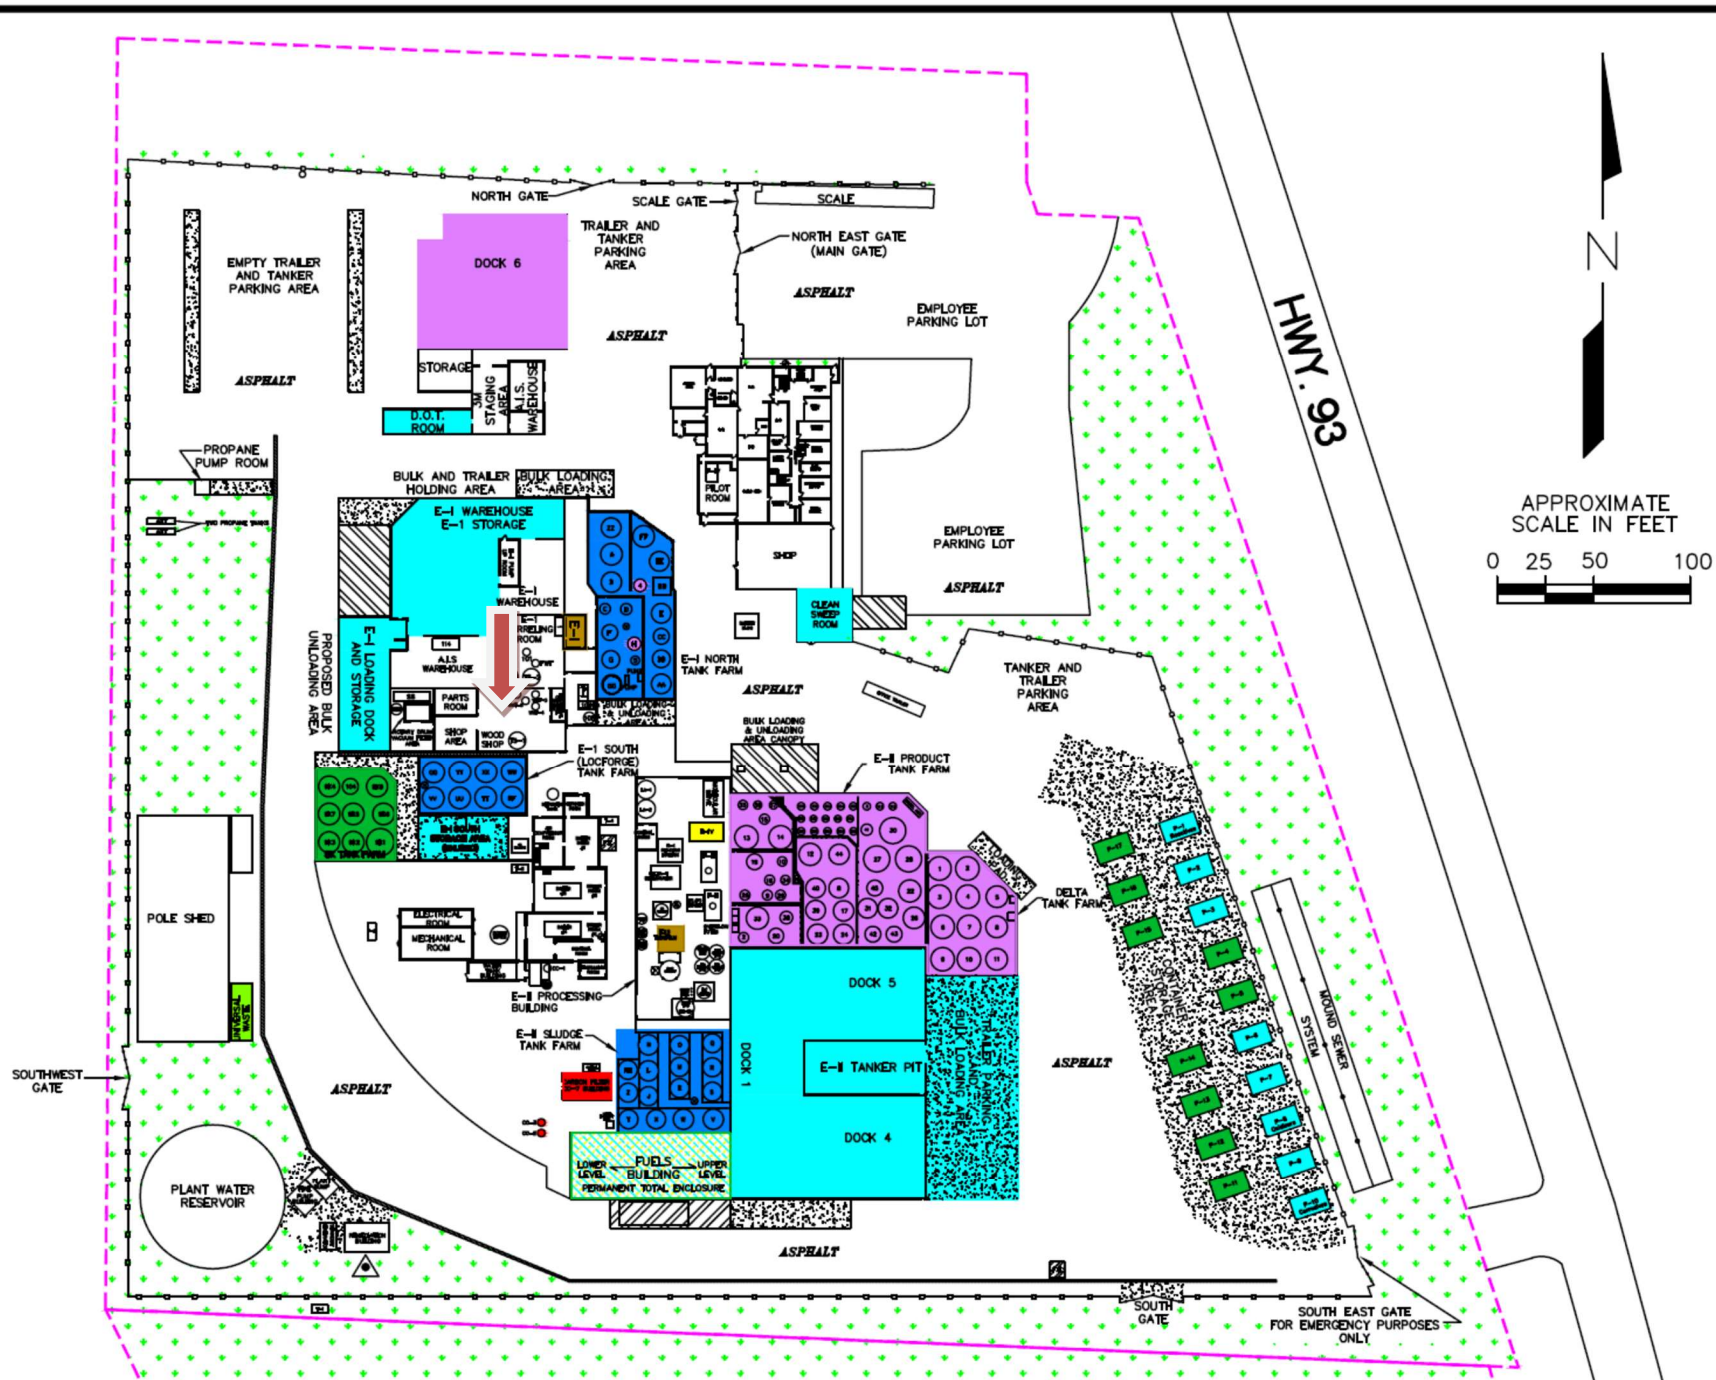

This waste contained to the EI Building.

10. Weather conditions existing at the scene, including presence of precipitation and wind direction and velocity.

The released inside a room.

11. Other agencies on-scene during the discharge incident.

No agencies were on-site during the discharge or clean-up.
