Ms. Logeman,

The Department has reviewed the Post Closure Modification Request submitted on your behalf by REI Engineering Inc. (REI) and approves the modification request proposed in the January 31, 2022 submittal. Upon completion of soil excavation and repaving, please work with your environmental consultant to complete a final documentation report outlining conditions at the site.

Please contact me with questions regarding this determination or the site in general.

Thank you,  
Matt Thompson
