Subject: Review of *Field Planning Request Form*  
West Bend Army National Guard Site, 125 Chopper Drive, West Bend, WI  
BRRTS #: 02-67-587928, FID #: 267015980

Dear Ms. Sullivan:

On November 19, 2024, the Wisconsin Department of Natural Resources (DNR) received the *Field Planning Request Form* (Form). A review of and response to the Form has been requested by the Army National Guard. The review fee is covered under an interagency agreement.

#### Form Review

The DNR has reviewed the Form and provides the following comments for your consideration:

- Provide a copy of the standard operating procedure for porewater sampling.
- United States Environmental Protection Agency (EPA) Regional Screening Levels (RSLs) have been updated for several per- and polyfluoroalkyl substances (PFAS). DNR recommends re-evaluation of the soil data based on the updated PFAS RSLs.
- QAPP Worksheet #11: PFAS screening levels in Table 11-1 do not appear to be the most updated values. There may be additional RSLs to add to Table 11-1 as well.
- Consider additional grab groundwater sampling locations to define the impacts noted in VP19 and south of AOI-1, south of the building.

The DNR appreciates your efforts to address the contamination at this site. Should you have any questions regarding this letter, please contact me at (414) 750-7030, or [riley.neumann@wisconsin.gov](mailto:riley.neumann@wisconsin.gov).

Sincerely,

A handwritten signature in black ink, appearing to read 'Riley D. Neumann'.
