

Spill Notification for WRR Environmental Services Co., Inc.

EPA ID# WID990829475

FID# 618026530

Spill ID# 16595

ID 20210609WC18-1 – Paint

Per Condition 86 of WRR Environmental Services' current Feasibility and Plan of Operations Report (FPOR), WRR is making the following spill report to the Department's designated Hazardous Waste Inspector assigned to WRR, to the Department's designated Hazardous Waste plan review staff person assigned to WRR and to the Department's designated Spills Coordinator.

This notification, required by Condition 86 of the WRR FPOR and NR 706.05(1), contains the following information to the extent practicable or applicable:

1. Name, address, and telephone number of the person reporting the discharge.

Becky Anderson – Director of Compliance
WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

2. Name, address, and telephone number of the discharger, or owner and operator of the UST system and any other potentially responsible persons.

JF Ahern Co
855 Morris St
Fond du Lac WI 54935-1316
920-907-5147

3. Date, time, and duration of the discharge.

June 9, 2021 at 8:00 am. Time to clean up the release was 1.5 hours.

Location of the discharge including street address, county, town, city or village

WRR Environmental Services Co., Inc.
5200 Ryder Road
Eau Claire WI 54701

Town of Washington

4. Identity, physical state, and quantity of the material discharged.

~50 gallons of waste paint related material liquid.

The hazardous waste codes associated with this waste is D001.

Spill Notification for WRR Environmental Services Co - Paint container spill 06092021

5. Physical, chemical, hazardous, and toxicological characteristics of the substance.

The release is paint related material containing pigments and flammable solvents.

6. Cause of the discharge.

As WRR personnel were unloading a trailer of waste that had arrived at WRR, the bottom of a drum of waste paint related material blew off due to a pressure build up in the drum.

7. Immediate actions being taken and the name of the contractor or other person performing the action.

Shovels, brooms, clay absorbent and pads were used to pick up the bulk of the release; both inside the trailer and on the surrounding ground.

All cleanup activities were conducted by WRR personnel.

8. Source, speed of movement, and destination or probable destination of the discharged hazardous substance.

The release was contained to the concrete area. No material impacted soil or contaminated the WRR stormwater collection area.

Included with this report is a facility map with the release location marked with a red arrow.

9. Actual or potential impacts to human health or the environment, including actual or potential impacts to drinking water supplies.

No drinking water supplies were impacted by the spill.

This waste contained.

10. Weather conditions existing at the scene, including presence of precipitation and wind direction and velocity.

The release occurred inside a semi-trailer and travelled to the surrounding area. The temperature at the time of the spill was 85F with an 2 mph wind. There was no precipitation. Approximately 19 pounds of volatile solvents were emitted during the release and clean up activities.

11. Other agencies on-scene during the discharge incident.

No agencies were on-site during the discharge or clean-up.

20210609WC18-1 JF AHERN CO.
