RE: Private Potable Well Sampling for PFAS

Dear Resident:

The Wisconsin Department of Natural Resources (DNR) is having a contractor, AECOM, conduct sampling of private potable (drinking water) wells in your area due to the potential presence of groundwater contaminated with per- and polyfluorinated alkyl substances (PFAS). The DNR has identified your property (1750 Mirro Drive) as being potentially eligible for sampling and is requesting that you provide additional information about any drinking water supply wells on your property.

The DNR was recently notified that PFAS contaminants were found in groundwater at the property located at 2009 Mirro Drive. The PFAS data is available online on DNR's public database called BRRTS on the Web (BOTW); go to dnr.wi.gov, search "BOTW" and enter BRRTS # 02-36-588656. At this time, the extent of contamination is unknown. The DNR is having AECOM conduct sampling of drinking water wells in the area to ensure that your drinking water is not impacted by PFAS.

The DNR asks that you complete the enclosed forms, including the *Potable Well Survey* and an *Access Permission Agreement*. The well survey is a questionnaire that will provide the DNR and AECOM with information about the well(s) on your property, where to sample your well, and your contact information so that AECOM can coordinate a time with you to sample your drinking water well. The access agreement is a document that gives AECOM permission to sample the well on your property. There will be no cost to you to have your well sampled if you agree in writing to participate in this sampling event. You will be informed of the results within 10 business days if your well is sampled.

If you choose to participate in the complimentary sampling program:

- Complete attached *Potable Well Survey*;
- Complete the *Access Permission Agreement*; and
- Return forms to DNR **as soon as possible** using the self-addressed and stamped envelope or email them to Tauren.Beggs@wisconsin.gov. **Forms should be submitted no later than November 19, 2021.**

Following receipt of the forms, AECOM will follow up with you to coordinate the sampling date and time. AECOM's team will then be on-site at your property to sample your well. You are not required to have your well sampled; however, the DNR recommends that you have your well sampled to provide detailed information about potential PFAS in your drinking water. **If you choose to opt out of the sampling program, the DNR requests that you return the *Potable Well Survey* indicating you are opting out, no later than November 19, 2021.**

If you have any questions concerning the information in this letter, please contact the DNR Project Manager Tauren Beggs at 920-510-3472 or at Tauren.Beggs@wisconsin.gov.

Sincerely,

Tauren R. Beggs

RE: Private Potable Well Sampling for PFAS

Dear Resident:

The Wisconsin Department of Natural Resources (DNR) is having a contractor, AECOM, conduct sampling of private potable (drinking water) wells in your area due to the potential presence of groundwater contaminated with per- and polyfluorinated alkyl substances (PFAS). The DNR has identified your property (2122 Woodland Drive) as being potentially eligible for sampling and is requesting that you provide additional information about any drinking water supply wells on your property.

The DNR was recently notified that PFAS contaminants were found in groundwater at the property located at 2009 Mirro Drive. The PFAS data is available online on DNR's public database called BRRTS on the Web (BOTW); go to dnr.wi.gov, search "BOTW" and enter BRRTS # 02-36-588656. At this time, the extent of contamination is unknown. The DNR is having AECOM conduct sampling of drinking water wells in the area to ensure that your drinking water is not impacted by PFAS.

The DNR asks that you complete the enclosed forms, including the *Potable Well Survey* and an *Access Permission Agreement*. The well survey is a questionnaire that will provide the DNR and AECOM with information about the well(s) on your property, where to sample your well, and your contact information so that AECOM can coordinate a time with you to sample your drinking water well. The access agreement is a document that gives AECOM permission to sample the well on your property. There will be no cost to you to have your well sampled if you agree in writing to participate in this sampling event. You will be informed of the results within 10 business days if your well is sampled.

If you choose to participate in the complimentary sampling program:

- Complete attached *Potable Well Survey*;
- Complete the *Access Permission Agreement*; and
- Return forms to DNR **as soon as possible** using the self-addressed and stamped envelope or email them to Tauren.Beggs@wisconsin.gov. **Forms should be submitted no later than November 19, 2021.**

Following receipt of the forms, AECOM will follow up with you to coordinate the sampling date and time. AECOM's team will then be on-site at your property to sample your well. You are not required to have your well sampled; however, the DNR recommends that you have your well sampled to provide detailed information about potential PFAS in your drinking water. **If you choose to opt out of the sampling program, the DNR requests that you return the *Potable Well Survey* indicating you are opting out, no later than November 19, 2021.**

RE: Private Potable Well Sampling for PFAS

Dear Resident:

The Wisconsin Department of Natural Resources (DNR) is having a contractor, AECOM, conduct sampling of private potable (drinking water) wells in your area due to the potential presence of groundwater contaminated with per- and polyfluorinated alkyl substances (PFAS). The DNR has identified your property (2509 Woodland Drive) as being potentially eligible for sampling and is requesting that you provide additional information about any drinking water supply wells on your property.

The DNR was recently notified that PFAS contaminants were found in groundwater at the property located at 2009 Mirro Drive. The PFAS data is available online on DNR's public database called BRRTS on the Web (BOTW); go to dnr.wi.gov, search "BOTW" and enter BRRTS # 02-36-588656. At this time, the extent of contamination is unknown. The DNR is having AECOM conduct sampling of drinking water wells in the area to ensure that your drinking water is not impacted by PFAS.

The DNR asks that you complete the enclosed forms, including the *Potable Well Survey* and an *Access Permission Agreement*. The well survey is a questionnaire that will provide the DNR and AECOM with information about the well(s) on your property, where to sample your well, and your contact information so that AECOM can coordinate a time with you to sample your drinking water well. The access agreement is a document that gives AECOM permission to sample the well on your property. There will be no cost to you to have your well sampled if you agree in writing to participate in this sampling event. You will be informed of the results within 10 business days if your well is sampled.

If you choose to participate in the complimentary sampling program:

- Complete attached *Potable Well Survey*;
- Complete the *Access Permission Agreement*; and
- Return forms to DNR **as soon as possible** using the self-addressed and stamped envelope or email them to Tauren.Beggs@wisconsin.gov. **Forms should be submitted no later than November 19, 2021.**

Following receipt of the forms, AECOM will follow up with you to coordinate the sampling date and time. AECOM's team will then be on-site at your property to sample your well. You are not required to have your well sampled; however, the DNR recommends that you have your well sampled to provide detailed information about potential PFAS in your drinking water. **If you choose to opt out of the sampling program, the DNR requests that you return the *Potable Well Survey* indicating you are opting out, no later than November 19, 2021.**

If you have any questions concerning the information in this letter, please contact the DNR Project Manager Tauren Beggs at 920-510-3472 or at Tauren.Beggs@wisconsin.gov.

Hi Jon,

I left you a voicemail as well. If you are still interested in getting your private well sampled, I have attached the private well survey and access agreement to print and fill out, scan, and email back to me.

The contractor AECOM will then follow up with you to coordinate the date and time for sampling your well.

If you have any questions, please feel free to contact me at my work cell phone number below.

Regards,

We are committed to service excellence.

POTABLE (Drinking Water) WELL SURVEY

(Return in the pre-paid envelope or email – Please submit no later than November 19, 2021)

County Tax Parcel ID Number: _____

Name (Owner): _____

Name (Occupant): _____

Property Address: _____

Mailing Address (if different): _____

Contact Number: (Owner) _____(Occupant) _____

1) From where do you obtain your drinking water?

a) Municipal Water Supply

b) Private Well Water

2) If you have a water well or wells, please answer the following questions:

a) How many water wells do you have on your property? _____

b) How many of your water wells are used as a drinking water source? _____

c) Are all the wells on your property currently in use? Yes No

d) If no, is the well(s) that is not in use usable, unusable, or sealed?

Usable Unusable Sealed

If multiple wells are not in use, please describe: _____

e) Please check all that apply regarding the usage of your well water:

Potable* Irrigation Livestock Other _____

*Potable refers to drinking water consumed by humans

f) Where are the well/wells located on your property (please describe): _____

g) When was the well/wells installed (if known)? _____

h) What are the depths of the well/wells (if known)? _____

i) What are the diameters of the wells (if known)? _____

j) Do you have a copy of the well construction form or boring log? Yes No

If Yes, please include a copy of the form if you are able.

k) Do you have any treatment on your well(s) (e.g. softener, filtration system)?

Please describe:

l) Do you have any other information regarding your wells/water system that may assist our sampling efforts?

Please describe:

3) Sample Permission

Do you want your potable water supply well sampled?

Yes No Not Applicable (e.g. no drinking water well on property)

If you select **Yes**, you agree to opt in to the sampling program and are required to complete the attached *Access Permission Agreement*. **Please return the *Potable Well Survey and the Access Permission Agreement* in the postage-paid envelope provided or by email to Tauren.Beggs@wisconsin.gov no later than November 19, 2021.** Upon receipt of this information, the DNR's contractor, AECOM, will contact you to coordinate the sampling.

If you select **No**, please submit the *Potable Well Survey* in the postage-paid envelope provided or by email to Tauren.Beggs@wisconsin.gov. The DNR will record your response and no further action is required. If a Potable Well Survey with a no response is not received, you may receive additional requests to have your well sampled.

If you select **Not Applicable**, please explain:

ACCESS PERMISSION AGREEMENT
for
POTABLE WATER SUPPLY WELL SAMPLING

BRRTS # 02-36-588656
Property type: Off-site

I, *print name* _____ hereby give my permission to the Wisconsin Department of Natural Resources (“the DNR”) and its employees, duly authorized representatives, agents and contractors, to enter upon and have access at reasonable times to property located at *print address* (street address, city, zip) _____

_____ within Manitowoc County, Wisconsin, referred to herein as the “Property”, and that is owned and/or occupied by *print name* _____, so that the DNR’s contractor may:

- (1) Conduct a site visit (or visits)¹ for the purpose of collecting a water sample from drinking water supply well(s) on the referenced property for per- and polyfluorinated alkyl substances (PFAS).

No investigative waste will be generated or temporarily stored on the Property as part of the sampling activities.

The permission that is granted herein shall remain in effect until April 30, 2022. After sampling is complete, if the owner of the Property wishes to withdraw permission for continued access, the owner of the Property shall notify the DNR of that fact in writing via letter or email.

The DNR’s authority to access the Property described above is provided under Wisconsin law including:

- Wis. Stat. § 292.11(7)(a) – to take appropriate direct action at a remedial action site.
- Wis. Stat. § 292.31(3) – to investigate or remediate a remedial site.
- Wis. Admin. Code § NR 716.13(16) - to sample public or private water supply wells as part of a regular monitoring program or to determine the extent of groundwater contamination, or both; including wells suspected to be affected by groundwater contamination.

The DNR will report all sampling results to the owner of the Property, and occupants as appropriate, within 10 business days of receiving the sample results from the laboratory.

¹ The DNR’s contractor intends to conduct a single site visit to the referenced property to collect a drinking water sample and any associated quality assurance samples; however, in the circumstance that additional samples are required to be collected from the property, an additional site visit may be required. Should additional sampling be required, the DNR’s contractor will discuss the need with the Property Owner and will coordinate the additional site visit in accordance with the terms outlined within this Access Permission Agreement.

Property owner certifications

Please mark the box to indicate that you understand and agree to the following information.

- As the owner and/or occupant of the Property, I hereby agree not to damage or interfere with water sampling activities, as permitted herein.

- As the owner and/or occupant of the Property, I understand that the DNR, in the course of conducting investigation activities, may find that contamination has migrated onto my Property.

Entry notification

The DNR's contractor shall coordinate the date/time of sampling with the Property owner and will notify the owner of the Property by telephone or email of any planned activity at least 48 hours in advance of entering the Property.
