**Subject:** Notice to Proceed with Site Investigation Work Plan for BRRTS No. 02-36-588656 MIRRO CO PLT 2 [Former]

Good afternoon Emma,

This email acts as the notice to proceed with the Site Investigation Work Plan received by DNR on May 26, 2022 with the following comment:

- DNR recommends soil samples be collected and analyzed for PFAS at the new locations proposed in this work plan in addition to the groundwater sampling.

A site investigation is an iterative process, so based on sampling results, additional investigation may be needed under Wis. Admin. Code ch. NR 716.

If you have any questions, please feel free to contact me.

Regards,

**We are committed to service excellence.**

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
