Good afternoon Tauren,

We were granted access and started site investigation field activities on 9/19. We are currently waiting on analytical results and will submit the laboratory reports to you within 10 business days of receipt.

Let me know if you have any questions.

Thank you,
Emma MacAlister, R.G.

Hi Emma,

The 9/26/2022 deadline has passed for the site investigation extension. Please provide an update on the site investigation activities. The DNR did call the owner in early August 2022 shortly after providing the site investigation deadline extension. After DNR explained the proposed work on the call, the owner indicated he would respond to Geosyntec/Tramontina and provide access to conduct the site investigation work, so I also wanted to confirm if you got access to the property or not.

Regards,

We are committed to service excellence.
