Subject: Discontinuation of Funding for Temporary Emergency Water Supply

Dear Mr. Basken:

This letter is intended as a follow up to the Variance for Extension of Temporary Emergency Water letter sent to you on July 20, 2022, to notify you that the Wisconsin Department of Natural Resources (“department”) is discontinuing the funding of the temporary emergency water supply that has been provided to you since January 14, 2022. The department is no longer authorized by law to provide for a temporary emergency water supply under Wis. Admin. Code ch. NR 738, because laboratory results of a water sample from your well indicate that your well no longer contains contaminants above the maximum levels set forth in Wis. Admin. Code ch. NR 140 and Wis. Admin. Code ch. 809, or above the Department of Health Services’ (DHS) recommended enforcement standards and/or the cumulative risk hazard index for per- and polyfluoroalkyl substances (PFAS).

The water vendor will contact you to make arrangements for the return of any equipment and deposits, if applicable. If you wish to continue the water supply, you may make private arrangements with the vendor.

Please contact Gwen Saliars at 920-510-4343, or [gwen.saliars@wisconsin.gov](mailto:gwen.saliars@wisconsin.gov) if you have any questions about this letter.

Sincerely,

Benjamin H. Vondra  
State and Federal Programs Section Chief
