Tauren,

Thank you for your e-mail. Ramboll representatives visited the site on February 6, 2024 and met with representatives from West River Lofts, LLC and the City of Two Rivers. We do not anticipate having any issue with submitting the PFAS focused Site Investigation Work Plan (SIWP) within 30 days, as requested, and are working to submit it sooner than that. The SIWP will be submitted with the appropriate review fee so we can obtain WDNR's written concurrence regarding the proposed scope of work.

Please let us know if you have any questions in the interim.

Kind regards
Susan Petrofske

Subject: Response to Status Update Letter Submitted January 29, 2024, for Bright Horizon Properties LLC (Former), BRRTS # 02-36-589295

Good morning Susan,

Thank you for the status update. Once Ramboll has met with representatives of West River lofts at the site this month to determine accessibility for subsurface drilling activities for sampling, a Site Investigation Work Plan (SIWP) should be submitted within 30 days from today's date to move forward with the investigation of PFAS. The documentation for this open case, Bright Horizon Properties LLC (Former), BRRTS # 02-36-589295, is electronically available on BRRTS on the Web. The Phase I Environmental Site Assessment received by the DNR on March 1, 2022, is available in BRRTS on the Web, which contains historical documentation.

If you have any questions or need assistance finding any documentation on BRRTS on the Web, please let me know.

Regards,
Tauren
