Hello Mark,

I just left a message on your phone regarding the Ashland School of Dance group located in 802 Main Street West at the Former Lake Superior Cleaner Site.

[HOME \(ashlandschoolofdance.info\)](http://ashlandschoolofdance.info)

As the attached RP letter states, elevated concentrations of tetrachloroethene were detected in a soil vapor sample collected in the building and trichloroethane exceeded soil clean up goals in a soil sample collected outside the building. Both can have negative health impacts. I would like to discuss the current situation and future environmental remediation plans. Please give me a call as soon as possible.

Thank you.

We are committed to service excellence.

Mark,

Can you give me an update on this site? The RP letter (attached) states that to comply with state law, an environmental consultant should be hired by May 19, 2023.

Thank you

We are committed to service excellence.
