Subject: NAR Pending Additional Data, Former Garbo Motors, Racine, WI

Keaton,

We reviewed the Garbo Motors request. Please collect one more round of groundwater samples from the two monitoring wells for VOC analysis and submit the sampling results lab report when it is available. If the results are similar or less for the compounds detected in the first round we will be able to concur that NAR is appropriate and provide a concurrence letter.

Thanks,

Adam

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
