March 6, 2009

BRRTS # 02-49-095950

Mr. Darcy Long, City Administrator
City of Amery
118 Center Street
Amery, WI 54001

Subject: City of Amery Landfill (license # 00069)

Dear Mr. Long:

On March 5, 2009 the Bureau of Remediation and Redevelopment Closure Committee reviewed the remediation effort that the City of Amery has done, in accordance with ch. NR 700, Wis. Adm. Code, to address contaminants coming from the Closed Amery Landfill. Contaminants included volatile organic compounds in the groundwater beyond the "design management zone" and methane gas migration beyond the limits of fill. At this time the Bureau of Remediation and Redevelopment is pleased to inform you that it is our belief the remedial action conducted under ch. NR 700 has been completed to the extent practicable.

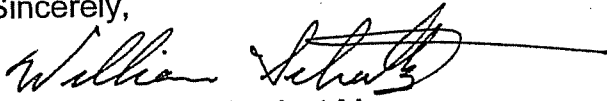

Oversight of the landfill is now turned over to the Bureau of Waste and Materials Management for "long Term" oversight. Future operations of the active gas extraction system, site monitoring and long term care should continue to follow your latest approved plan of operation/closure plan. Any modifications to your plan(s) need to be approved by the Bureau of Waste and Material Management prior to implementation.

At this time the person overseeing your site is Bob Germer. All future correspondences should be sent to:

Mr. Bob Germer
Wisconsin DNR
810 Maple Street
Spooner, WI 54801
(715) 635-4060
Bob.germer@wisconsin.gov

We appreciate the efforts the City of Amery has undertaken to address this complex environmental problem.

Sincerely,

A handwritten signature in cursive script, appearing to read "William Schultz", with a long horizontal line extending to the right.

William Schultz, Project Manager
Bureau of Remediation and Redevelopment
