Hi Tauren,

Yes, still pretty much on schedule. All the soil/groundwater sampling and rounds of monitoring are now complete (the last GW round was in January). We are preparing the report for you review now. We should have the data compiled, etc. by March.

If anything changes we will let you know.

Hi Lynn,

Checking in to see how the additional work at the Lesperance and White Properties is coming along. The last quick update I received from you in October 2016 was that the work was moving along pretty much on schedule. Has the soil sampling per the June 13, 2016 submittal *Opinion of Probable Costs – Soil Sampling White Property* been completed? Please provide an update when you get a chance.

Thanks,

**We are committed to service excellence.**
