Lisle, IL 60532

Subject: Extension of Infiltration Temporary Exemption Request for Former Navistar/RMG Foundry
1401 Perkins Avenue
Waukesha, WI 53186
BRRTs #: 02-68-098404, FID #: 268005430

Dear Mr. Alido:

This letter is written on behalf of the Wisconsin Department of Natural Resources (DNR) to grant an extension to complete injection work at the subject location. A Ch. NR 140.28 temporary exemption request was approved on March 27, 2020, for 2 years to pilot test the injection of a chemical oxidant (Sodium Persulfate) into the groundwater. A WPDES permit was granted on June 29, 2018, and this is valid until June 30, 2023.

The DNR hereby grants an extension to inject Sodium Persulfate into the groundwater under the same conditions which the temporary infiltration request was granted. The extension request is granted for a period of one year from the date of this extension request.

If you have any questions concerning this temporary injection extension request, please contact me at 414.208.5874.

Sincerely,

Binyoti F. Amungwafor

Hydrogeologist
