NOR-LAKE INC
ATTN: Kevin Fink/ Justin Hallquist
PO Box 248
Hudson, WI 54016

Subject: **New Project Manger**
Nor-Lake Soil & Groundwater Remediation
891 CTH U, Hudson,
BRRTs# 02-56-000089

Dear Mr. Dullea;

This letter is to notify you of a change in personnel within the Department of Natural Resources, Remediation and Redevelopment Program, about the above-referenced property. I am the new project manager for this site.

Please direct any future correspondence pertaining to Nor-Lake to:

Candace Sykora
Project Manager/ Hydrogeologist- Remediation & Redevelopment Program
West Central Region
Wisconsin Department of Natural Resources
890 Spruce Street
Baldwin, WI 54002
(715)684-2914 ext. 134
Candace.sykora@wisconsin.gov

Also, after reviewing the recently submitted 2018 Annual Report, I wanted to comment on the proposed work for 2019. Regarding the treatment systems and assessing vapor intrusion potential, it is highly encouraged to review Wis. Admin. Code ch. NR 700; guidance publication RR-800, RR-042 and RR-986. Assessment of potential vapor intrusion at the Nor-Lake facility should be addressed through soil gas sampling and sub-slab sampling. While stack test sampling is useful data, the Department would not use this data to evaluate potential vapor intrusion at the site nor would it be considered to move the site towards closure.

If you or your consultant would like to further discuss vapor intrusion sampling, methodology, guidance, and/or evaluation further please do not hesitate to write or call. Lastly, if you would please update me with who the contact is for Chuck Dullea I would very much appreciate it. Please contact me at (715)684-2914 ext. 134 or candace.sykora@wisconsin.gov. Thank you for your attention to this matter.

Sincerely,

Candace Sykora
Project Manager - Remediation & Redevelopment Program
West Central Region
