Subject: Response to Comments on 2017 Barrier Monitoring Annual Report, Tyco Fire Products LP Site

Conor:

Attached is a response to your comments on the 2017 Barrier Monitoring Annual Report including additional information on the permitting status for the pump down program conveyance system and figures depicting the location of sheet pile deflections (greater than 1 inch) and the phyto-pumping plots. Please review the information and should you have any questions, please do not hesitate to call.
