Greg,

Based on our conversation yesterday the DNR believes you should proceed with the PDI investigation recognizing the DNR's opinion that the contamination found at the location of SW15-SB06 needs remedial action evaluation in the upcoming Remedial Action Options Report. Please contact me if you have any questions and have a good weekend.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

John Sager

John,

Thanks for taking the time to discuss the PDI with us today. I have attached the March 17 clarification letter without the "Draft" watermark. Sorry about that.

Thanks again,

Greg Prom
