**To:** Neste, David E - DNR  
**Subject:** TYCO FTC Site in Marinette, WI

Dave,

Arcadis is going to start making the calls today/Monday to set up June dates for resuming the Biosolids residential well sampling. I want to make clear that we feel this obviates the need for a decision on our variance request.

We continue to work on the other requests we received this week from DNR. As we discussed earlier today, TYCO/JCI is on a reduced hour work week due to the effects of the COVID-19 which has impacted our response time.

Thanks for your patience and understanding.
