DNR Contact: Josie Schultz

I'm not certain of the specific DNR statute.

Working with Enviroforensics to locate insurance policies from around 1982 in order to secure money for the remediation. Additional time is needed for Enviroforensics to perform the archeology. They will be digging back close to 38 years. I don't know how long that will take.

COVID19 is hitting everyone and meeting with lenders in order to try to secure a loan is not possible currently. That is another issue because there is not a figure that can be provided as to how much will be needed.

In addition, my hours have been cut at work so my ability to borrow and re-pay will likely be impacted.

Thank you

Lee Amundson
