Hi Bridget,

Below is an email I sent to JCI/Tyco's consultant who will be submitting the wetland disturbance application for them. The email summarizes the discussion we had during the pre-application meeting that was held. The only people in attendance for this meeting were Ryan Bombeck and myself.

If you have any questions let me know.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: Tyco Ditch B GETS Pre-Application Meeting Summary

Hi Ryan,

This email is to summarize the pre-application meeting that we had on February 11th via Microsoft Teams.

When discussing the proposed project, you stated that there were 2 wetland delineations done already, but you are waiting on a 3rd which will be finished this spring, likely in May. You plan to submit your application in March, before the delineation is completed, and if wetlands are found in the areas of construction, you had asked if you could have the permit amended to include the additional impacts.

Since this project will require wetland mitigation, which will be done by either purchasing credits from a wetland mitigation bank or thru DNR's in-lieu-fee program, I stated that amending this type of permit will be difficult since additional credits will need to be purchased before we can approve an amendment. I suggested that you submit the applications in "phases" and submit the first application for only the areas that have been delineated already and if additional wetlands will be disturbed after the 3rd delineation is done, then you can submit another application for this phase of the work.

If you have any additional questions, let me know.

Please submit this email with your application which confirms that a pre-application meeting was held.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
