Dave – We are scheduled to begin the drilling on Monday, August 3, 2020, based on driller availability. I will take 2 to 2 ½ weeks. Last week we collected some of the pre-investigation blanks, on the source of decon water and some of our field equipment. We need to collect some on some of the driller's equipment and supplies. We plan to get them collected next week, so August 3rd is actually very good timing for getting the blank results back before we drill.

Sincerely,

John Storlie, PG | Principal Consultant | Managing Member

John,

Thank you for the revised site investigation work plan. I appreciate your timely updates. The revisions are approved and I look forward to continued progress at this site.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.

Subject: WDNR BRRTS # 02-32-000065: La Crosse Wells 23 & 24 - SI Status Update

Dear Dave:

The attached letter provides an update on the site investigation activities for the La Crosse Wells 23 & 24 site. It also adjust the sampling locations at the 2001 Crash Site based on our field investigation of the location. On June 11, 2020, the City Council allocated funding for the site investigation, and the Board of Public Works is slated to review the change order for the work next Monday, June 22, 2020. In the meantime, we are collecting some pre-investigation blanks (decontamination water, supplies, PPE, hand auger) this week and scheduling a planning call with the driller.

We will continue to keep you informed of the schedule. As always do not hesitate to call me with any question you may have.

Thank you, and

Best regards,

John
